There will be number of exercises which are provided in study material. The practical should be conducted in Computer Labs. There is availability of enough number of resources in JECRC University.
7	Cost Estimate of the Program and the provisions	**Attached Annexure**
8	Quality assurance mechanism and Expected program outcomes	DDE shall establish a Centre for Internal Quality Assurance (CIQA) and follow established guidelines for Quality Monitoring Mechanism with a defined process of Quality Audit. The Expected Program Outcomes are: • Understand societal, environmental, health, legal, ethical issues within local and global contexts and the consequential responsibilities relevant to professional practice. • Identify opportunities and use innovative ideas to create value and wealth for the betterment of the individual and society. • Apply knowledge of computing fundamentals, mathematics and domain knowledge appropriate for computing models from defined problems and requirements. • Expertise in developing application with required domain knowledge.

PROGRAM PROJECT REPORT

VISION : To be an institute of academic excellence with total commitment to quality education in Management, Commerce and related fields, with a holistic concern for better life, society and Nation.

MISSION

- To carve a niche for ourselves in the specialized field of commerce and management.
- Providing for holistic and value based development of students which ultimately enhances their employability.
- Empowering students with all the knowledge and guidance that they need to become worthy management professionals.
- Learning through Doing and imparting value framework that is global yet national.
- Provide a nurturing and motivating environment to exploit the full potential of the students.

1	Relevance of the program with HEI's Missions and Goals	This Undergraduate Program would provide platform to develop human potential to its fullest extent.
2	Nature of prospective target group of learners	Director of Distance Education (JECRC University) on the basic of its simple--and-easy-learning academic contents and its affordable fees structure aims at diverse class of learners including a class having of low level of disposable income, rural dwellers, women, unskilled men, minorities etc. Specially, all the students who wish to have a Bachelors Degree in ODL mode in Management.
3	Appropriateness of program to be conducted in open and distance learning to acquire specific skills and competence	The learning outcomes for BBA program includes the development of knowledge and understanding appropriate to specialized field of commerce and management and reflect academic, professional and occupational standards of commerce and management. The learning outcomes incorporate generic transferable skills and competencies.

DDE has both Print and Non Print SLM, apart from this, there will be regular (pre-informed) Online-Sessions and a user-friendly 24X7 Online Support system to help the students in all possible manner. The details of the Curriculum design, detailed syllabi, duration of the programme, faculty and support staff requirement, instructional delivery mechanisms will be updated regularly through the regular process as applicable to the regular programs of the HEI and the same will be updated on the website regularly.
5	Procedure for admission, curriculum, transaction and evaluation	The procedure of Admissions shall be detailed in the Prospectus and shall simultaneously be updated on the Website (for every academic session) with minimum eligibility and fee structure (with information related to financial assistance, if any, included in the policy). The policy of program delivery will be incorporated in the Admissions Prospectus; the online/website which will include the detailed syllabus , type of SLM. Generally the methods adopted will be Print, Non Print and web-based tools with 24X7 student interaction. DDE shall notify the activity planner (regularly updated on the Website) including all the academic activities to be carried out during the academic session, which will also include the Date(s) for Internal Assessments, End Term Examination, Assignment submissions and such others.
6	Requirement of the laboratory support and Library Resources	This program has no practical component in syllabus. DDE shall give instruct a suitable guidelines about the laboratory support to the learners to make Project Work/Assignments prescribed in the program through Print, Non Print, Online/virtual and Web based tools.

PROGRAM PROJECT REPORT FOR BACHELOR OF SCIENCE – B.Sc.

	Program's Mission and Vision	
1	**Relevance of the program with HEI's Missions and Goals**	Science being one of the oldest academic disciplines is fundamental and foremost to all natural sciences. It has been influential through advances in its understanding that have translated into new technologies. The story of physics is also about people who thought out of the box. The progress of science, and Physics in particular is rooted in addressing fundamental questions about the Nature and to test the validity of a hypothesis or a physical theory, using a methodical approach to compare the implications of the theory in question with the associated conclusions drawn from experiments and observations conducted to test it.
2	**Nature of prospective target group of learners**	Director of Distance Education (JECRC University) on the basic of its simple--and-easy-learning academic contents and its affordable fees structure aims at diverse class of learners including a class having of low level of disposable income, rural dwellers, women, unskilled men, minorities etc. The B.Sc. program is a graduate Six Semester Course spanning over three years duration.
3	**Appropriateness of program to be conducted in open and distance learning to acquire specific skills and competence**	The B.Sc. course is aimed at imparting a rigorous study program at graduate level covering both depth and breadth of all relevant areas. The course structure is designed with a due emphasis on wider conceptual base, including experiments and modern computational techniques. The courses on Oscillation and waves and Mathematical Physics assure us of comprehensive and futuristic education that can pave way for Upcoming and Cutting Edge Technologies that mushroom from the laboratories of Physics and transform the society of tomorrow.
4	**Instructional design**	No. of Program Credits: 116 Director of Distance Education (JECRC University) Instructional Design includes Curriculum design, detailed syllabi, duration of the programme, faculty and support staff requirement,

		In addition, students graduating with a B.Sc. should be able to: • Apply more advanced mathematical tools, including Fourier series and transforms, abstract linear algebra, and functions of a complex variable. • Use classic experimental techniques and modern measurement technology, including analog electronics, computer data acquisition, laboratory test equipment, optics, lasers, and detectors. • Communicate verbally, graphically, and/or in writing the results of theoretical calculations and laboratory experiments in a clear and concise manner that incorporates the stylistic conventions used by physicists worldwide.
